Technical Skills

Languages & Frameworks: JavaScript (ES6+), TypeScript, VueJS, NuxtJS, React, HTML5, CSS3, C++, PHP, Laravel

Styling & Design: Figma, Storybook, Tailwind, Sass, Bootstrap, Accessibility (WCAG)

Tools & Platforms: Git, GitHub, GitLab, Copilot, Docker, WSL, Linux, Node.js, MySQL, Postman

Testing: JUnit, PHPUnit, Playwright, TestRail

Other: Responsive Design, UI/UX Principles, Scrum/Agile, REST API / API integration

Professional Summary

Frontend developer with a strong eye for details and a passion for building accessible, responsive, and visually appealing digital experiences. Proficient in VueJS, React, TypeScript, Tailwind, Sass, and Laravel, with hands-on experience in both frontend and backend development. Highly skilled in Figma, not only translating designs into pixel-perfect interfaces but also collaborating on design iterations, components, and prototypes to bridge the gap between design and development.

Professional Experience

Software Developer

Sportradar Media Services GmbH, Vienna, AT — 2023 – Present

- Built and enhanced a **complex CMS** and **responsive, high-traffic sports websites** for multiple clients, delivering engaging, user-focused experiences in my daily work.
- Implemented **local environment check** which runs on git commit and considers all staged .vue files for **accessibility issues** based on the eslint-plugin-vuejs-accessibility rules.
- Conducted **Lighthouse accessibility audits** and created actionable tickets aligned with **WCAG** standards, driving measurable improvements in usability and compliance.
- **Refactored and optimized** VueJS components, improving scalability, maintainability, and performance.
- Translated Figma designs into **responsive interfaces** across devices, ensuring consistency and usability.
- Implemented the new design for multiple workflows (ex. **entire registration workflow**), ensuring a smooth user experience, and supported colleagues by reviewing their work and or adding improvements where needed.
- Developed and **experimented with modern frontend interactions**, including NuxtJS **view transitions** and engaging thumbnail-to-player animations, enhancing user experience.
- Collaborated on **API development and integration**, including building a whole new API in order to serve content from our platform to TV applications.
- Wrote and maintained **unit and integration tests** (JavaScript & PHP).

Frontend Development Intern – Coding Academy

Sportradar Media Services GmbH, Vienna, AT — 2022

- Developed a sports event calendar with **CRUD** functionality.
- Built a complete **RESTful API** with PHP and tested endpoints using Postman.
- Participated in **code reviews** and adopted **clean coding practices**.

Education

BSc in Computer Science — University of London (ongoing)

BSc in Computer Science — University of Vienna (2020 – 2023)

Bachelor of Arts — National University of Arts George Enescu, Iasi
