Professional Summary

Frontend developer with a strong eye for details and a passion for building accessible, responsive, and visually appealing digital experiences. Proficient in VueJS, TypeScript, Tailwind, and Laravel, with hands-on experience in both frontend and backend development. Having an artistic background, I combine daily the technical side with creativity and a passion for aesthetics and UI/UX.

Professional Experience

Software Developer

Sportradar Media Services GmbH, Vienna, AT — 2023 – Present

- Built and enhanced multiple features for a complex CMS and high-traffic sports websites.
- Led accessibility improvements by integrating WCAG-compliant solutions and automated tools.
- Refactored VueJS components for scalability using the Composition API.
- Implemented designs from Figma with great care for responsiveness across screen sizes, including view transition effects.
- Built and improved APIs; developed a full API for TV applications to integrate live sports events.
- Wrote unit tests for both frontend and backend (PHP & JS) to ensure code quality and coverage.

Frontend Development Intern – Coding Academy

Sportradar Media Services GmbH, Vienna, AT — 2022

- Developed a sports event calendar with CRUD functionality.
- Built a complete RESTful API with PHP and tested endpoints using Postman.
- Participated in code reviews and adopted clean coding practices.
