Professional Summary

Frontend developer with a strong passion for crafting accessible, responsive, and visually appealing digital experiences. Proficient in VueJS, TypeScript, Tailwind, and Laravel, with hands-on experience in both frontend and backend development.

Professional Experience

Software Developer

Sportradar Media Services GmbH, Vienna, AT — 2023 – Present

- Led accessibility improvements by integrating tools and checks into CI/CD workflows.
- Refactored VueJS components for scalability using the Composition API.
- Implemented pixel-perfect designs from Figma with responsiveness across screen sizes.
- Built APIs for BigScreen Apps to integrate sports events offered by our platform.
- Wrote unit and E2E tests, contributed to performance optimization and peer code reviews.

Frontend Development Intern – Coding Academy

Sportradar Media Services GmbH, Vienna, AT — 2022

- Developed a sports event calendar with CRUD functionality.
- Built a complete REST API with PHP and tested it using Postman.
- Collaborated on code reviews and learned clean coding techniques.

Education

University of London — BSc in Computer Science, Specialism in User Experience (2023 – Present)

University of Vienna — BSc in Computer Science (2020 - 2023)
